Javascript:
Roadmap 2024

```
                          Basic
                            |
    +-----------+-----------+-----------+
    |           |           |
  Syntax ---- Variable ---- Data Types
    |           |               |
  Strings ---- Methods ------ If..else
    |           |               |
 Operators -- Date & Time ---- Loops
```

Basic

Syntax

Variable

Data Types

Strings

Methods

If..else

Operators

Date & Time

Loops
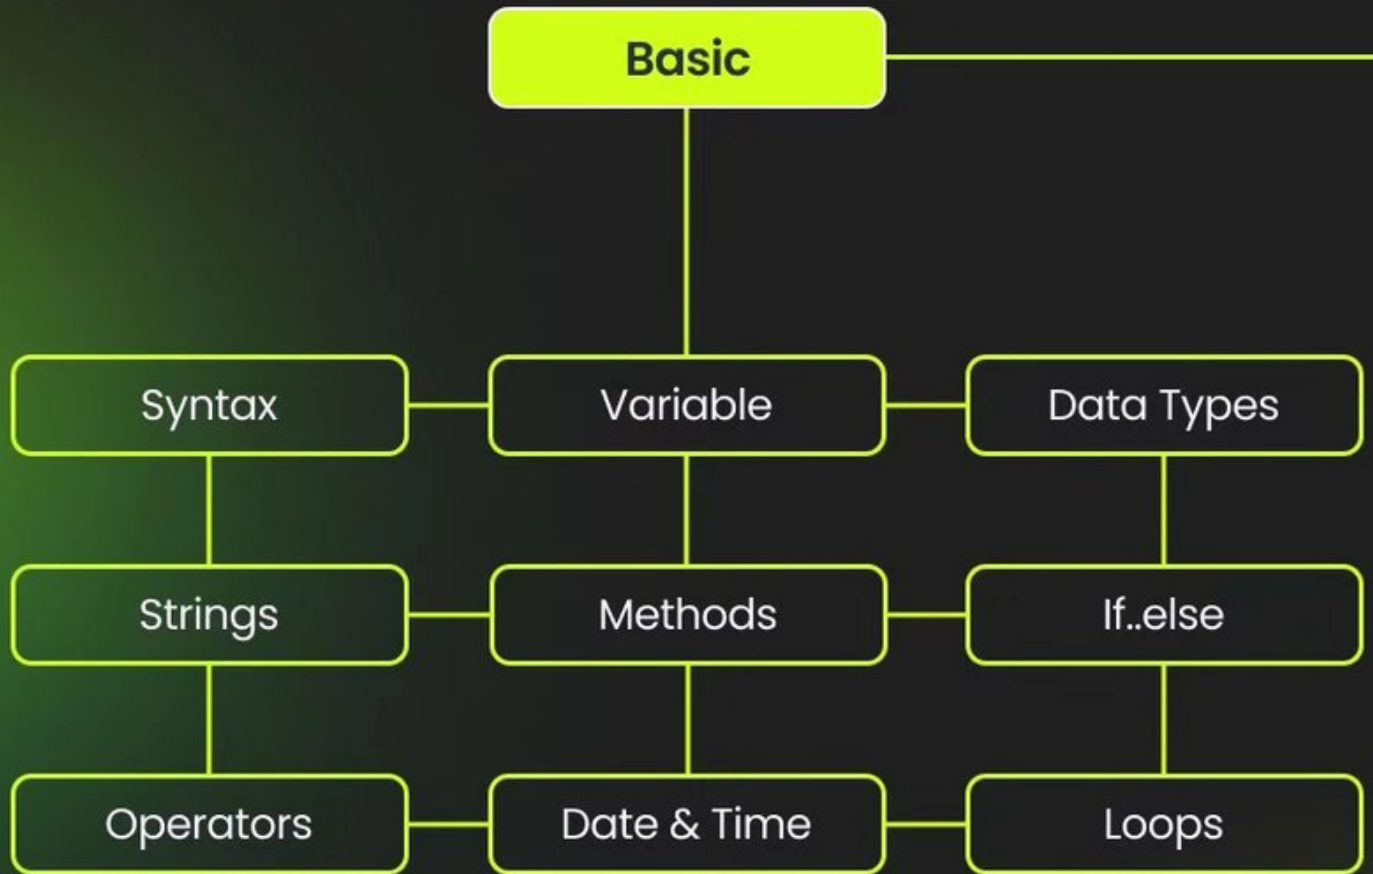

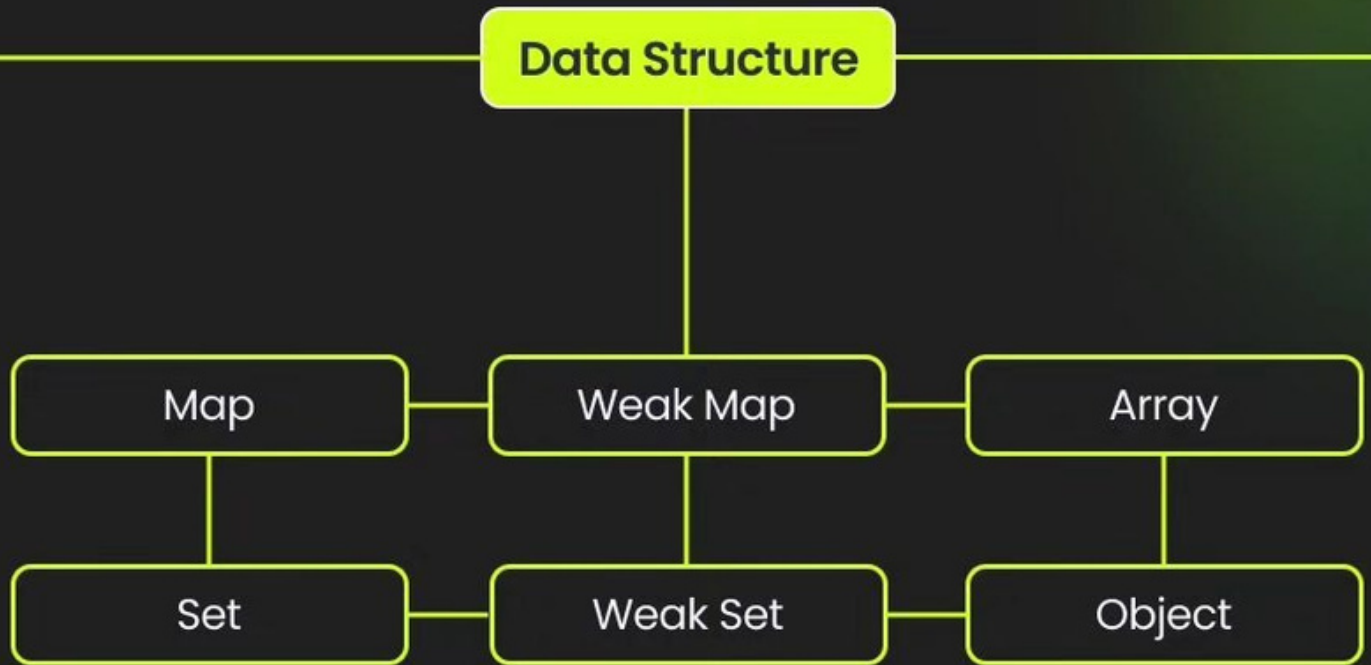

DOM Manipulation

- Styling an Element
- Selecting Elements
- Event Listeners
- DOM Tree Analogy
- Traversing the DOM
- Modifying Elements Attributes & Classes
- Creating, Adding, Modifying And Remove Elements

Exceptions & Modules

- finally keyword
- try...catch
- throw statement
- Javascript Modules

```
                    ES6

Proxies    Arrow Function    Classes

      Destructuring Assignment

Spread        Default       Template
Operator     parameter       literal
```

Advance JS

- Closure
- Scope
- use strict
- Generators
- OOPs
- Iterator
- Memory Management
- Javascript Regex
- Browser Debugging
